

## CASE STUDY

# University of Central Oklahoma Decreases Campus No-Shows by 10%

**Within six months of adopting Cadence Text,** The University of Central Oklahoma reduced the number of no shows for campus visits and was better able to engage applicants.

UNIVERSITY OF  
Central Oklahoma

**Location:** Edmond, Oklahoma

**Public** (4-Year, Regional)

**Degree seeking students:**  
13,250

**Information System:**  
Ellucian CRM Recruit

Using **Cadence Text**  
in Admissions

## The Challenge

The University of Central Oklahoma struggled with low enrollment and poor event attendance. UCO needed a solution to increase prospective student interest quickly and bring more students in for campus visits.

Our competitors have had texting for a while, so for us, it's huge. It moves the needle to where our competitors are... (CRM) Integration allows for a more complete communication record.

**Sarah Krivy,** CRM Services-Undergraduate Admissions

## The Solution

UCO knew that personalized texting would be the best way to connect with prospective students. The platform they selected had to save staff time by integrating and automating contact imports to their Ellucian CRM Recruit.

Mongoose Cadence came highly recommended by peers who had previously used the software. University of Central Oklahoma implemented Cadence Text with the CRM integration.

## The Results

Only six months into their partnership and three months into recruiting, the University of Central

Oklahoma is seeing incredibly positive results. **The 1-1 conversations translate into accepted students.** The platform has also saved staff time with its intuitive design, automated features, and two-way CRM integration. They've reduced the number of students skipping campus visits by using text reminders.

**Convert more applicants.**
